Dear Ms. Van Horn:

We have your letter of July 11, 2014 and at first look little information was found so we are taking a second look i.e. deeper. We need more time to complete this search. We believe the fill you speak of was clean, but prior to 1992 we did store chat from lead mines there for use on icy roads.

But to completely answer your inquiry, attachment A refers to an attachment 1, map of sampling results. No such sampling map was provided. In addition to time, I need this sampling map.

Thank you for your cooperation.
